NYC // ATL // DTOWN

hacker &&  
hustler 

## Education

2013 - TBD

**COMPUTER SCIENCE**

GEORGIA TECH

GT Honors Program Class of 2017. Picking up the basics in in ATL. Weekdays in class, weekends elsewhere hacking with the homies.

## Experience

2014

**DEV/ANALYST INTERN**

DETROIT VENTURE PARTNERS

Graduated from VC and Negotiation boot camp. Started off the summer at portfolio company Grand Circus to help redesign their entrepreneurial offerings. Moved to UpTo midway. Worked user acquisition and led development of their Android Wear application.

2014

**PROJECT LEAD**

SAMPLIFY

With thousands of downloads and a lifespan of five days, Samplify was a huge hit and a total shit show. This mobile tool allowed users to identify samples in playing songs. It was listed as a Top 25 new music app in the Play Store until the hacking battle with WhoSampled began. Several cease and desists later, Samplify was retired.

2013

**CO-FOUNDER / LEAD DEVELOPER**

LUNAR

Lunar is a mobile application that connects local events to people with a simple application that asks users only one question: "Do you want to party or do you want to chill?" Developed in Startup Semester, a pre-accelerator program sponsored by Atlanta's ATDC incubator.

2012

**RESEARCHER**

BROOKHAVEN NATIONAL LAB

Under distinguished astrophysicist Anže Slosar developed wq, a work queue script for submitting and handling jobs on computer clusters and supercomputers. Great experience that drove me away from public sector and deep into entrepreneurship.

## Endeavors

### HACKGT

Director of user experience for GT's first national hackathon. Helped raise over \$300k.

### STARTUP EXCHANGE

Executive board member, co-director of Startup Semester 2014, director of InternMatch.

### DEVELOPMENT

Android, Java, Python, Bash, HTML, CSS, JavaScript, MySQL

### PASSIONS

Startups, hackathons, building, meddling, getting into trouble for all the right reasons, rap music my mother would slap me for listening to
